

HTG HEATERS

Submersible Aquarium Heaters

THE HTG SERIES

Maintain constant and stable water temperatures with our NEW HTG Series aquarium heaters. This analog glass heater features a built-in external guard to greatly reduce accidental breakage from mishandling and can handle aquariums up to 100 gallons. The HTG Series is easy to set and adjust to the desired temperature with the use of the Temperature Adjustment Knob. These powerful aquarium heaters are double insulated and made from high quality glass.
